

JEPPESEN[®]
NavData[®] Alert

!! URGENT !!

Date: 06 July 2011

Subject: Russia
All Russian Domestic Airways designated 'W'

Possible Outdated and/or Incomplete Russian Domestic Airway Source

WARNING: Jeppesen did not receive the 1st edition of the Russian ATS Route Manual, effective 05 May 2011. The information used for Jeppesen's Russian Domestic Enroute Airway Services (Airways designated 'W') may be outdated and / or incomplete (services including but not limited to NavData and Charting).

UNTIL FURTHER NOTICE AIRCARRIERS / PILOTS OPERATING IN RUSSIAN AIRSPACE ARE STRONGLY ADVISED TO EXERCISE CAUTION WHEN OPERATING ON RUSSIAN DOMESTIC AIRWAYS (AIRWAYS DESIGNATED 'W').

This Alert will be posted on the Jeppesen Web site

(<http://www.jeppesen.com/main/corporate/company/alerts/aviation-alerts.jsp?region=Eastern%20Europe>).

WE STRONGLY URGE YOU TO MAKE THIS INFORMATION AVAILABLE TO APPROPRIATE CREW MEMBERS OR CUSTOMERS IMMEDIATELY!

If you have questions concerning this NavData Alert, please contact Jeppesen Technical Support at:

Phone: +49-(0)6102-50-8175

E-mail: navdatatechsupport@jeppesen.com

NavData Alerts are published to advise users of significant issues in Jeppesen navigation data which may affect flight operations or safety. They are distributed to affected ARINC 424 NavData users (avionics companies and other raw data users) and airlines receiving NavData directly from Jeppesen. Alerts are not distributed by Jeppesen to individual airline, business aviation or general aviation pilots, but are available to them on the Jeppesen Web site, www.jeppesen.com. Different avionics equipment and computer systems use and display NavData and data derived from NavData differently. Avionics users should consult with their database update service provider for definitive information on whether their system is affected by this Alert.
