

## **SERVICE ADVISORY**

**NO.: 1905 Rev A**

**TO:** All Garmin Aviation Product Owners and Operators  
**DATE:** January 28, 2019  
**SUBJECT:** GPS Rollover

---

### **PRODUCTS AFFECTED**

All Garmin aviation products are affected.

### **ISSUE**

On April 6, 2019 the week number broadcast by the GPS satellites will roll over. As a result of this event some GPS devices may recognize an incorrect date when powered on after April 6, 2019.

After extensive testing, Garmin has determined there are no known issues with Garmin aviation devices as a result of the April 6, 2019 rollover date.

Further testing is underway to check for future GPS time and date issues.

### **PILOT ACTION**

No action is necessary.
