

JEPPESEN[®]
NavData[®] Alert

!! URGENT !!

Date: 27 April 2020
Subject: Haiti
Enroute Airways

Cycle 2005

Prior NavData Alert Cancelled

UPDATE – NAVDATA ALERT CANCELLED

Jeppesen NavData for cycle 2005, effective 23 April 20 did not contain airway changes within Haiti. Haiti AIP Amendment 01/20 was received after the date specified by ICAO for aeronautical information distribution.

As a result, Jeppesen issued a NavData Alert, dated 15 APR 2020 providing the missing airway information until cycle 2006 NavData would be available.

Haiti issued NOTAM A0013/20 **cancelling** AIP Amendment 01/20 and all changes within.

Therefore, Jeppesen NavData for cycle 2005, effective 23 April 20 contains all up to date airway information within Haiti, and the airway changes listed in the Jeppesen NavData Alert should not be referenced or used.

WE STRONGLY URGE YOU TO MAKE THIS INFORMATION AVAILABLE TO APPROPRIATE CREW MEMBERS OR CUSTOMERS IMMEDIATELY!

This Alert will be posted on the Jeppesen Web site (<http://www.jeppesen.com/company/alerts/alerts.jsp>).

If you have questions concerning this NavData Alert, please contact Jeppesen Technical Support at:

Phone: 303-328-4445

E-mail: navdatatechsupport@jeppesen.com

NavData Alerts are published to advise users of significant issues in Jeppesen navigation data which may affect flight operations or safety. They are distributed to affected ARINC 424 NavData users (avionics companies and other raw data users) and airlines receiving NavData directly from Jeppesen. Alerts are not distributed by Jeppesen to individual airline, business aviation or general aviation pilots, but are available to them on the Jeppesen Web site, www.jeppesen.com. Different avionics equipment and computer systems use and display NavData and data derived from NavData differently. Avionics users should consult with their database update service provider for definitive information on whether their system is affected by this Alert.
