

## Navigation Data Alert 2118

**TO:** Users of GMX 200 and MX20 systems  
**DATE:** February 16, 2021  
**CYCLE:** 2102 and later  
**SUBJECT:** All Airspace data removed from Navigation Database in Africa and Middle East

---

### **AFFECTED PRODUCTS**

All GMX 200 and MX20 Garmin systems are affected.

### **DESCRIPTION**

Due to continued data expansion, and a memory/design limitation of the affected systems, all airspace data will be removed from many countries in Africa and the Middle East. Beginning in Cycle 2102 (effective February 25, 2021), all airspace data for the following countries will no longer be included in the Navigation Database:

- All countries in Africa (with the exception of South Africa)
- Afghanistan
- Bahrain
- Iran
- Kuwait
- Oman
- Qatar
- Saudi Arabia
- United Arab Emirates
- Yemen

### **PILOT ACTION**

Be aware of this data change. Obtain an alternate means of viewing airspace information.

The displayed information on the systems is meant to be an aid to situational awareness. Always rely on official and approved data sources prior to and during each flight.

**WE STRONGLY URGE THIS INFORMATION BE MADE AVAILABLE TO APPROPRIATE CREW MEMBERS OR CUSTOMERS IMMEDIATELY!**

*Garmin requests the flight crew report any observed discrepancies related to database information. These discrepancies could come in the form of an incorrect procedure, incorrectly identified terrain, obstacles, fixes, or any other displayed item used for navigation or communication in the air or on the ground. Go to [fly.garmin.com](http://fly.garmin.com) and select "[Aviation Data Error Report](#)."*
